Dear Sirs:

Thank you for the excellent Project Support Services you have provided over the past year for the Luberef GII/GIII Expansion Project team based in Leiden, Holland. You and your team have provided consistent, knowledgeable service and I have been very pleased with your prompt and thorough response level.

The project schedule was very demanding and your team showed great awareness to ensure the design is done within schedule and Saudi Aramco and International standards throughout the FEED.

Good luck to your Team and future endeavours.

Best Regards,

A handwritten signature in black ink, appearing to read "M. H. Nusair", written over a horizontal line.

Muhammad H. Nusair
Project Director
