Dear Irteza,

Through this letter, we would like to express our most sincere thanks for the great and exceptional service that your organization provided last year when conducting the HAZOP Study for Additional Capacity for Distribution Facilities Phase II project(BI-10-00610 & BI-10-00612).

We are pleased with your company's performance; more specifically, the willingness to accommodate our client's numerous requests and the expeditious manner in which such requests were addressed considering the fact that these two BI's were comprised of 14 facilities. We need to add that all 14 Reports were issued on schedule and within budget.

Rest assured that we would recommend your firm to others looking at engaging in similar endeavors in kingdom.

Warmest of regards,

Eduardo Lau
