Dear Gents,

Thank you for the excellent project support you have provided over the past year to me and the Design Services Division. You and your team have provided consistent, knowledgeable service, and I have been very pleased with your prompt and thorough response level. While I have been satisfied with all projects on which you've worked, I specifically highlight two detailed design projects where you delivered exceptional service: Hydraulic and Surge Analysis of DHT FW piping network and New Flame Arrestor on Sweet Naphtha FG Lines. Both of these projects were completed within schedule and with excellent support from Alrabiah – Berkeley Engineering.

I would recommend your team to others, and look forward to working with you again in future.

***AN Mojahed,
TSU Engineer***
